

ENERGIE CONSULT
HOLLAND BV

Certificate for F-gases for companies

Pursuant to Articles 6 and 9 of the Fluorinated Greenhouse Gases and Ozone Depleting Substances Decree, Energie Consult Holland B.V. has, on the basis of research and regularly-conducted assessments, determined that the processes carried out by

Aeronamic B.V.
Planthofsweg 79 in Almelo

and specified in this certificate are deemed to comply with the Assessment Directive for the Certificate for F-gases for Companies (BRL 100 version 2.0 dated June 6, 2019).
The processes carried out to which this certificate refers concern the following work:

Installation, maintenance or service, repair and decommissioning of stationary refrigeration equipment, stationary climate control equipment or stationary heat pumps, in which fluorinated greenhouse gases are used, as referred to in Article 2(1) of the Fluorinated Greenhouse Gases Regulation or regulated substances, as referred to in Article 3(4) of the Regulation on substances that deplete the ozone layer.

The certificate holder is permitted to perform the following work on the equipment referred to in the certificate without restriction of the nominal filling:

Installation, maintenance or service, repair and decommissioning of stationary refrigeration equipment, stationary climate control equipment or stationary heat pumps, in which F-gases are used.
